who are we?

ICI is an institute specialized in providing consulting and training programs in various fields. Which aims to develop the skills and capabilities of people and bring them to the highest levels of creativity, innovation, and leadership, and the establishment of the Institute of Innovative and Creativity (ICI) came as a result of a long experience that lasted for more than 20 years of qualitative work, which is represented by a group of institutes for men and higher education for women.

El Modreb Institutes for Men, and El Thakaafy higher institute for Women, was launched for training in the Kingdom of Saudi Arabia in 2002, in the city of Riyadh; The institutes work through their branches spread around the Kingdom in various cities to provide training and educational solutions and transfer their expertise. Then, after the updates brought by the Kingdom's Vision 2030 and the updates that are still in place and ongoing regarding digital transformation and the empowerment of citizens and various sectors, to unleash all their capabilities, achieve more success and progress, and develop innovative opportunities for the future. rehabilitating youth and equipping them with the required skills; The update and re-launch of the brand and visual identity of the institutes came in line with the Kingdom's Vision 2030. The name was transformed into Innovation and Creativity Training Institute. With the goal of providing distinguished services in the quality of training programs that simulate the Saudi labor market and its requirements; From the development of human resources and management consulting, in addition to the availability of qualified and specialized training staff on the latest technology and information.

Professional training

We seek to qualify people in non-academic fields, raise their professional competence, and enable them to enter the labor market without having to hold university degrees. Through professional training programs prepared by qualified and experienced trainers, the duration ranges from several weeks to two years, depending on the field of training. People can start vocational training after completing their basic, secondary or higher education.

Languages

(Arabic for non-native speakers - English - German - Chinese)

We are keen to target those looking for training in different and diverse languages in order to achieve excellence in language knowledge, or to face future challenges or promotion; Where it depends on the requirements of the trainees in order to reach their goals.

Administrative and professional consulting

We have a wealth of consultants with deep experience in providing management consulting services that support our clients' projects, develop their future strategies and capabilities, enable them to face current challenges, and prepare themselves for a sustainable future.

Employment training programmes

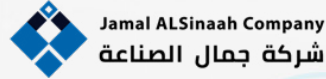

Through it, we aim to train Saudi job seekers, male and female. And qualifying them for the local labor market, in a manner commensurate with their professional and academic capabilities and competencies, and in coordination with the Human Resources Development Fund.

Objectives:

- Supplying the labor market with a group of well-trained people on the latest international training programs.
- Achieving a distinct environment.
- Develop station monitoring programs with local guidance and global insights.
- Providing everything new and modern to raise the creative process with the latest training and educational solutions in the Kingdom.
- Raise the efficiency of the trainees to excellence in the performance of work.
